Instalation of Truck Freight Service Results in Reduction of Rates.

Las Cruces, N. M., July 15 .- A striking example of the modey saving value of the gravel roads of Dona Ana county to the farmers is shown by the instalation of a motor truck freight service between Las Cruces and vicinity and El Paso. An enterprising citizen purchased three 2009 pound capacity mo tor trucks, and within the surprisingly short time of three days these trucks were running almost full capacity both ways between Las Cruces and El Paso over the new gravel surfaced Camino Real.

over the new gravel surfaced Camino Real.

Reduces Shipping Rates.

The first effect of this motor truck service on the farmers and fruit growers of this valley has been reduced shipping rates. The express rate for the 4t infle distance on native products from Las Cruces and vicinity to El Faso is 79 cents a hundred. The three rooter trucks are daily hauling these rative products at a rate of 56 cents a hundred. The difference of 25 conts a hundred is just to much money that goes into the pockets of the farmers growing their crops. That this amounts to a considerable sum is evidenced by the fact that the three trucks are running almost full capacity, and make usually more than one trip daily. The service is made possible only by the almost perfect hard surfaced stretch of the Camino Real extending from Las Cruces to the Texas state line, which was recently built by the Dona Ana county road buard from the county bond issue of \$100.000.

MAJOR GENERALSHIP

Priends of Gen. Hugh L. Scott are wondering what effect the campaign to make Brig. Gen. Frederick Punston a major general will have upon Gen. Scott's future outwer.

The next vacancy in the rank of major general will be caused by the retirement of Maj. Gen. William W. Wotherspoon, in November. Gen. Scott, who is assistant to Gen. However, Gen. Functon's friends. Including the entire Kansas delegation in congress, are sirging him for the next appointment of a major general. There will be a second vacancy in April and it is thought that Gen. Functon will be promised this if he does not oppose the appointment of Gen. Scott in November.
